PROFESSIONAL SUMMARY

Final-year Computer Science student and OCI Certified Architect Associate with a strong focus on Backend and Full-Stack Development. Experienced in building scalable backend systems and RESTful APIs using Flask and Java. Skilled in designing efficient data flows, integrating databases, and solving complex engineering problems. Actively seeking a Software Engineer or Developer role where I can contribute to production-grade systems and grow as an engineer.

SKILLS

Languages: Python, C++, C, Java, Data Structures & Algorithms

Web & AI: Flask, Streamlit, HTML, CSS, RAG, LLM, REST API, JWT Authentication, API Integration

Databases: MySQL, PostgreSQL, MongoDB

Cloud & DevOps: Git, Oracle Cloud, Docker, Oracle Cloud Infrastructure (OCI)

Tools & Platforms: GitHub, Figma, FFmpeg, VS Code

EDUCATION

B.Tech in Computer Science and Engineering | CMR University, Bengaluru | 2022 – 2026 (Expected) | **CGPA: 8.76**

Pre-University Course (PUC) | SBGNS Composite Rural PU College, Chickballapur, Karnataka | 2020 – 2022 | **83%**

EXPERIENCE

Java Intern | Besant Technologies | Aug 2025 - Sep 2025

- Engineered 5+ Java-based applications, focusing on Object-Oriented Programming (OOP) principles and data structures.
- Developed a multithreaded file processor, maintaining a student database using Java JDK and MySQL for my mini project.
- Streamlined code logic for mini-projects, reducing execution time by 15% through optimized algorithm implementation.

ACADEMIC & PERSONAL PROJECTS

Precision Fertilizer Management System | Tech: Python, MySQL, HTML/CSS, Machine Learning | Mar 2025 - Jun 2025

- Developed a data-driven web application to provide enhanced fertilizer recommendations for various crops based on soil type, moisture, and nutrient data.
- Created a predictive algorithm that led to an estimated 20% reduction in fertilizer waste.

hiREsume: AI-Driven Career Development and Content Generation | Tech: Python, Streamlit, CSS | Oct 2025 - Nov 2025

- Developed an end-to-end career platform utilizing Gemini Pro API for semantic resume-to-JD matching with 90%+ accuracy.
- Designed a professional, user-focused interface and implemented an AI mock interview chatbot to provide actionable insights and improve job readiness.

SecureStego – Multi-Media Steganography System | Tech: Python, Flask, AES, LISP, RSA, HTML, CSS | Nov 2025 - Dec 2025

- Built a high-security system embedding encrypted data into Image/Audio/Video files using hybrid RSA/AES-GCM encryption.
- Streamlined large-file handling through chunked embedding and FFmpeg processing, maintaining 99% data integrity post-extraction.

CERTIFICATES

- Oracle Cloud Infrastructure – Architect Associate ([Link](#))
- Java Internship – Besant Technologies ([Link](#))

ACHIEVEMENTS

Freelance Technical Mentor | Jan 2024 – Present

- Architected and mentored 5+ B.Tech capstone projects, specializing in Full-Stack and ML domains, ensuring 100% successful deployment.
- Conducted technical code reviews and debugging sessions, improving student average project grades by 20%.
